PROFILE

As a front-end developer with over 15 years experience, I take pride in bringing a design to life. Being a designer myself, I have a keen eye to translating designs to the web. Being familiar with the entire web development process from content, to design, to front-end development, to back-end development, and content editing allows me to take a holistic approach.

In addition to development I have a diverse skill set that allows me to take on web design, general graphic design, motion graphics & animation, and general web maintenance tasks. Attention to detail is present in everything I do.

EXPERIENCE

Freelance Front-End Developer & Designer   *2010–present*
Remote
My diverse skill set allows me to take on a wide variety of projects such as front-end development, graphic design, motion graphics, web design, and 3D renderings. I work on projects of all sizes and scopes.

JS Interactive   *2018–present*
Remote
I do a mix of web design, WordPress development, content editing, and general website maintenance tasks to ensure client platforms are kept up to date and operating smoothly.

Engagency   *2016–2022*
Austin, TX
I was responsible for a variety of tasks including web design, front-end development within Sitecore, and QA testing. I also work on company branding elements such motion graphics, promotional videos, & marketing materials.
